Sampling and Sample Preparation Solutions for Mining Industry

Topics

This seminar provides practical hints for reproducible preparation of solid materials.

In an state of the art sample prep. laboratory a qualified handling and preparation is the precondition for a safe process control an a precise analysis.

Special topics of this semniar are:

Bond Index Testing

Flotation

Drying

For the operators it is sometimes difficult to consider all relevant aspects in order to select the most suitable machines and accessories for sample preparation.

Who will get benefit from this seminar?

The seminar is addressed to all operators which are aiming to optimize the sample preparation procedures. Starting from industrial sampling and the following sample preparation steps.

Organizer of the Seminars

LAARMANN Group B.V. – The Laarmann Group: Building a Bridge between the Process and the Quality Lab

The Laarmann Group B.V. in Roermond in the Netherlands is the intermediate between the process and the laboratory field providing innovative solutions for automated sampling. It is generally accepted that demands of modern industry require high production rates and reduced down times combined with improved quality and lower costs. But one subject is coming more and more into focus for all industries: the quality of a getting truly representative samples. Here Laarmann on one side eliminates the human error by automating sampling systems. On the other side Laarmann enables Quality Management in the Analytical Laboratory that analyses they produce are truly valid, making conclusions worthwhile for the business they are in.

Program

10:00	Welcome
10:10	Introduction in taking samples and sample preparation <ul style="list-style-type: none">• Grinding technologies• Usefull hints to select the most suitable machines and accessories
11:30	Break
11:45	New solutions for sample preparation
13:00	Lunch break

Please bring your own samples

14:00	Practical Part 1 Grinding
16:00	Questions and discussion
17:30	Networking

Locations

03.04. Seminar 1:

ITU Mining Faculty
İhsan Ketin Conference
Hall / Maslak
Istanbul
Turkey

03 Nisan 2013 – İTÜ
Maden Fakültesi – İhsan
Ketin Konferans Salonu
/ Maslak – İSTANBUL

04.04. Seminar 2:

MTA General Directorate
– Natural History Museum
Conference Hall /
ANKARA
Turkey

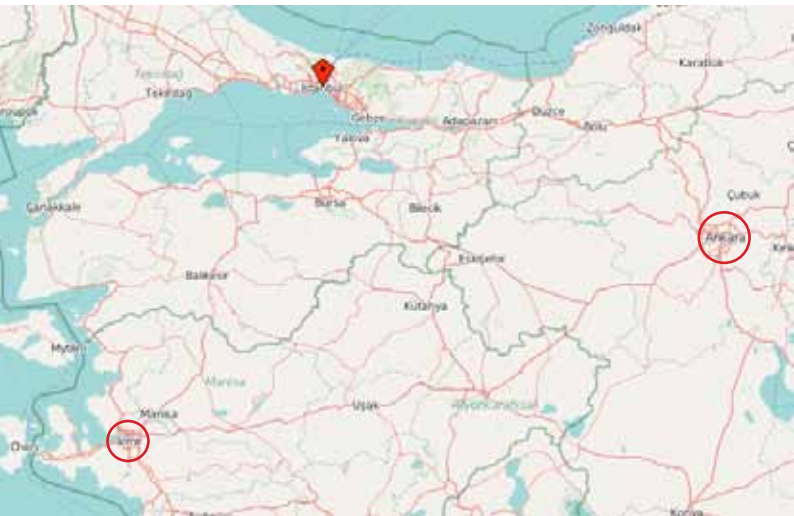

04 Nisan 2013 – MTA
Genel Müdürlüğü - Tabiat
Tarihi Müzesi Konferans
Salonu / ANKARA

09.04. Seminar 3:

DEÜ Engineering
Faculty Conference
Hall /Tınaztepe Campus

IZMIR
Turkey

09 Nisan 2013 – DEÜ
Mühendislik Fakültesi
Konferans Salonu /
Tınaztepe Yerleşkesi –
IZMIR

Registration

Please send your registration via
